Detailed Programme.

Monday June 1st, EMAEE conference day 1.

8:30 – 9:00 **Registration:** Maastricht University- SBE, Tongersestraat 53, Maastricht.

9:00 – 9:30 **Introduction and welcome: Prof. dr. Bart Verspagen (UNU-MERIT).**

Location: SBE AULA (Auditorium, H0.01). Chair: Sheng Zhong.

9:30 -10:30 **Keynote Speaker : Dr. Semih Akcomak (Middle East T. University).**

Title: "Mid-tech trap: The case of Automotive Industry in Turkey"

Location: SBE AULA (Auditorium, H0.01). Chair: Sheng Zhong.

11:00 - 13:00, Parallel session 1.

1.1 Globalization and evolutionary change			Venue A0.23, Chair: M. Savona
Mark Knell			Structure and behaviour in global innovation networks
Sergio Petralia			Climbing the Ladder of Technological Development
Maria Savona			When Linder Meets Hirschman: Inter-Industry Linkages And Global Value Chains In Business Services
Keiichiro Suenaga			The Emergence of New Industries: The Emergence and Evolution of Heat Engines
1.2 Economics of innovation			Venue A0.24, Chair: I. Savin
Florence Blandinieres	François Perruchas, Davide Consoli		A methodology to assess the unlinear medical innovation process. The example of Liposomes
Ivan Savin	Uwe Cantner		Replicator dynamics in value chains: explaining some puzzles of market selection
Marco Grazzi	Daniele Moschella		Small, young, and early exporters: New evidence on the determinants of firm growth
1.3 National innovation systems			Venue A1.22, Chair: M. Verba
Vitaliy Roud	Leonid Gokhberg		Capturing structural changes in national innovation system: longitudinal study of innovation modes in the Russian industry
Michael Verba			Explaining Country-Level Innovative Performance
Hugo Confraria	Fernando Vargas Cuevas		Scientific networks and collaborations with industry in Latin America
1.4 Innovation networks and industrial dynamics			Venue A1.23, Chair: A. Sapiro
Stefan Töpfer	Uwe Cantner; Holger Graf		Structural dynamics of innovation networks in German Leading-Edge Clusters
Maria Enrica Virgillito	Giovanni Dosi, Marcelo Pereira		The footprint of evolutionary processes of learning and selection upon the statistical properties of industrial dynamics
Alessandro Sapiro	Valérie Revest		The creation function of a junior listing venue: An empirical test on the Alternative Investment Market
